**Seneca-Warren Drainage District – Sucker Creek/Lateral A:** Dolata spoke with Eric at MSA and requested a proposal be put together to open up the Sucker Creek channel. Dolata requested two proposal along with a budget for each. **Survey Lateral A to Hwy D:** Morris sent a letter to Carl Chenowerth at REA, no response yet.

**Harenburg Bridge Request:** Nothing to report

**Gneiser Request:** Mr. Gneiser brought correspondence from Waushara County Land Conservation Department stating that when the roof runoff project was completed on his farm the water drained into a drainage ditch that flows north. Severson was willing to move the boundary line south to remove the areas draining north, roughly from the shooting lane visible on the map and following the contour lines in Mr. Gneisers field. Mr. Gneiser stated that the water in the swamp flows to the north/northwest and not to the south as the board has it. Severson again stated that he was willing to move the boundary line to the south but would not remove the marsh/swamp unless there was some elevations showing that the water flows north/northwest. Mr. Gneiser stated that he wants the boundary completely right or he will take the board to court.

**Pawlacyk Request:** Dolata will work on the letter to Pawlacyk.

**Mashuda Dissolution Request:** Morris sent the information to Mr. Mashuda on dissolving a district, but has not heard anything on this yet.

Krueger would like to look at the ditch from the Hwy D bridge down to the river – possible beaver dam in area. Morris will get in contact with Carl Chenoweth, REA, if he doesn't hear from them regarding the information request.
